Dear Mr. Portman:

In accordance with Executive Order 12322, I am submitting for your review the Army Corps of Engineers Roseau River, Minnesota Feasibility Report and Environmental Assessment, which recommends construction of a project for flood damage reduction and recreation. The enclosed draft letters to the Speaker of the House of Representatives and the President of the Senate express the views and recommendations of the Secretary of the Army.

The proposed project is described in the report of the Chief of Engineers dated December 19, 2006. A copy of the report and other supporting data are enclosed. The report was prepared in partial response to a resolution adopted by the Committee on Public Works of the United States Senate on September 30, 1974. Please advise this office whether the recommendation to implement the project is consistent with Administration policy.

Very truly yours,

John Paul Woodley, Jr.
