

CESAW Lessons Learned

- **Sustain**

- Stakeholder Involvement throughout study - prevented showstoppers or reformulation in public review.
- Environmental coordination during formulation – avoided changes

- **Improve**

- Review Process – improve vertical coordination on all aspects of policy and technical review process
- Flexibility – adaptation to changes in policies and conditions

US Army Corps
of Engineers

One Team – Relevant, Ready, Responsive, Reliable

SAD Lessons Learned

- **LPP must be coordinated earlier in process**
- **Engagement of Planning Center of Expertise must be continuous**
